Prime Minister  
East Timor

Dear Prime Minister

We are deeply concerned to learn that journalist Jose Belo is being charged with criminal defamation following the publication of an article in his newspaper Tempo Semanal alleging improper conduct by Justice Minister Lucia Lobato.

While making no comment on the merits of his allegations, we are disturbed by the application of criminal defamation laws against one of East Timor's bravest and most respected journalists.

Belo's role in documenting the atrocities of the Indonesian occupation and disseminating that information to the international media is well known. Since self government, Jose has emerged as one of the most productive, disciplined and independent journalists that East Timor has produced. He has become a key figure in the attempt to build a democratic media in your country. To be imprisoned by your government would be a great injustice to Jose and more importantly, a terrible precedent for all media in East Timor. Such laws criminalise and suppress good journalism, they help cloak corrupt and questionable behaviour of public officials and they diminish the reputation and international standing of the nations that apply them.

We note that the laws under which Jose Belo has been charged are left over from the old Indonesian regime, and understand that new laws more suited to a democratic society have been drafted but have not been placed before your parliament.

We pledge our support to Jose Belo and all East Timorese journalists who may face imprisonment for the practice of their profession. We urge you to take all actions within your power to bring about the dropping of this charge and the removal of Criminal Defamation laws in East Timor.

Respectfully,

1. Wendy Bacon, Professor of Journalism, University of Technology, Sydney
